

Career Objective

B.Tech Computer Science (Data Science) student at Bennett University with hands-on experience in Python, C++, machine learning, and data analysis. Passionate about building AI-driven solutions and seeking internship opportunities to apply problem-solving skills and develop scalable software systems.

Education

Bennett University	Expected 2028
B.Tech in Computer Science & Engineering (Data Science) CGPA: 9.6/10	
Renaissance School	2024
Class XII (PCM) CBSE 89.4%	
Sunrise Public School	2022
Class X CBSE 86.6%	

Technical Skills

- **Languages:** Python, C++, Java
- **Libraries:** OpenCV, Matplotlib, Pandas, Scikit-learn
- **Databases:** MySQL
- **Concepts:** Data Structures & Algorithms, Object-Oriented Programming
- **Tools:** Git, GitHub, VS Code, Google Colab
- **Languages Spoken:** English, Hindi

Projects

AI-Powered Interview Coach	GitHub Live Demo
• Developed a full-stack AI interview coaching platform integrating NLP, reinforcement learning, speech analysis, and posture tracking • Built an OpenEnv-compliant RL environment to optimize adaptive feedback strategies for interview improvement • Implemented multimodal analysis combining text, audio, and video inputs with ATS resume evaluation and sentiment analysis • Tech Stack: Python, Flask, PyTorch, OpenCV, Transformers	
Aadhaar Enrollment Analytics Dashboard	GitHub Live Demo
• Developed a full-stack analytics dashboard to visualize Aadhaar enrollment data using interactive charts and KPI metrics • Implemented server-side data filtering, aggregation, and real-time summaries across states and districts • Designed REST APIs and optimized dashboard performance using data sampling techniques for large datasets • Tech Stack: Python, JavaScript, FastAPI, React, Plotly	
SMS Spam Detector	GitHub Live Demo
• Developed an NLP-based SMS classification system using TF-IDF vectorization and Logistic Regression, achieving 96% accuracy • Designed a text preprocessing pipeline including tokenization, stopword removal, and feature extraction • Built and deployed a Streamlit web application for real-time spam prediction • Tech Stack: Python, Scikit-learn, Streamlit, Pandas	

Certifications

- The Bits and Bytes of Computer Networking – Google (Coursera)
- Data Structures and Algorithms – Infosys Springboard
- Introduction to Data Analytics – IBM (Coursera)
- Operating Systems and You: Becoming a Power User – Google (Coursera)
- Software Engineering – NPTEL (IIT Kharagpur)

Activities & Achievements

- Qualified Round 1 of Meta PyTorch OpenEnv Hackathon x Scaler School of Technology
- Ranked 256 out of 600+ participants – Smart BU Hackathon
- Solved 100+ coding problems on LeetCode, focusing on Data Structures and Algorithms
- Participant – AMD AI Reinforcement Learning Hackathon, IIT Delhi
